DETAILED ACTION

Claims 1-4 are pending and have been examined.

Information Disclosure Statement

1. The information disclosure statement filed 10 December 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. No copy of non-patent literature could be found.

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02. The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

Applicant's version states, "37 CFR 1.56(a)" which is incorrect.

Drawings

3. The drawings submitted 23 April 2001 were approved.

Specification

The disclosure is objected to because of the following informalities: Application 09/416,285 listed too often in continuation paragraph, second occurrence needs to be removed. Appropriate correction is required.

Double Patenting

STATUTORY

4. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

5. Claims 1, 3 and 4 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 6, 7, 11, 12 and 15 of prior U.S. Patent No. 5,815,718. This is a double patenting rejection.

Claim 1

Claims 6 and 7 of USPN 5,815,718 disclosed substantially the same limitations as Applicant's current claim 1. The claims of USPN 5,815,542

Claim 3

Claims 11 and 15 of USPN 5,815,718 disclosed substantially the same limitations as Applicant's current claim 3.

Claim 4

Claim 12 of USPN 5,815,718 disclosed substantially the same limitations as Applicant's current claim 4.

6. Claim 2 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-3 of prior U.S. Patent No. 5,815,718. This is a double patenting rejection.

Claim 2

Claims 1-3 of USPN 5,966,542 disclosed substantially the same limitations as Applicant's claim 2.

7. Claims 5-11 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-7 of prior U.S. Patent No. 6,223,346. This is a double patenting rejection.

Claims 5-11

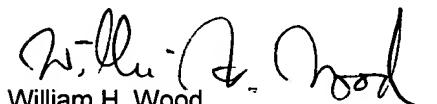

Claims 1-7 of USPN 5,966,542 disclosed substantially the same limitations as Applicant's claims 5-11, respectively.
